

Dear Ravi,

Shivam did the last countingwell session 5 days back. We suggest that he continue to do a 20-minute workout every day to build confidence and improve performance in the class.

In the last session, we covered:

- Area of circles
- Perimeter of circles

Shivam is now able to:

- Measure area of a circle if he is given the radius.
- Find the area of the circle if given the perimeter

[More](#)

However, he was not able to

- Draw a circle

We will help him with it in his next few workouts.

A great quote from Mahatma Gandhi to share with Shivam to do better:

**“ Wake up with determination. Go to bed with satisfaction ”**
